2009

PROFILE

I'm passionate about making people feel good about themselves. My work with FHM (Philippines) has taught me how to work with different kinds of people, in certain conditions and environments, whether it be in an abandoned hospital or on the beach. When I moved to Nashville, my job helped me meet people and explore the city. I joined TPG (The Powder Group) to keep me informed. I continue to attend as many events and webinars learning from the biggest Makeup Artists in the industry to further my education. My job is all about my clients. I want them to feel good and be ready when they leave my chair.
