## Education:

**Bachelor's Degree** - Secondary Ed, Biology - **Tennessee Tech University**

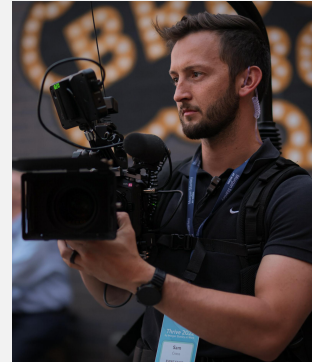

College GPA: **3.77** - ACT Score: **32**

## About Me:

I was a middle/high school science and math teacher for five years before leaving to pursue a career in filmmaking; since then, I have worked on shoots for Morgan Stanley, Google, Fulwell 73 Productions, Oscar Winner Barbara Kopple, FloSports, Nutrisense, SpotOn, the STAND Coalition, and many others. I've written and directed shorts, commercials, interviews, and a 40-minute basketball documentary.

I have a passion for storytelling, so I carry that frame of mind into every aspect of filmmaking. As a lifelong learner, I find lessons in every experience and hope to add value to every production I get to be part of.

I have extensive experience operating multiple camera systems, lighting, sound recording/design, and editing with Premiere Pro and Davinci Resolve. I'm detail-oriented, great at following directions, and above all else, I'm a very hard worker.
