

MATT W.

AWARD-WINNING VIDEO EDITOR

To whom it may concern:

"Matt is one of the most hard working dynamic, brilliant individuals I have worked with in post-production and editing." - Mr. Schwartz, Development Executive | VP of Production

As a professional video editor, I have been blessed to work on 100+ series with super-talented professionals (like Mr. Schwartz) within the Network Television community.

Based in Knoxville, TN - I have over 30 years of experience as a video editor, post-producer, and storyteller - producing high-quality content - short form to full episode - I create compelling stories tailored for brands, platforms and viewers.

Clients often send raw footage without a script and expect entertaining content in return - after much prayer and lots of coffee - I enjoy exceeding expectations.

"Matt is truly a professional. We had the best experience with him. He is an incredibly talented video editor and storyteller // we'll hire him again." - Ms. Mirabile, Director of Production | 2 Market Media
