CORE COMPETENCIES

Documentation & Risk Mitigation

- Pre-construction condition documentation
- Progress and milestone tracking
- High-risk phase documentation
- Post-event / dispute documentation
- Written site observations supporting liability awareness

Consulting & Drone Program Development

- Drone program setup for construction and industrial companies
- FAA compliance and operational guidance
- Risk mitigation strategies and documentation workflows
- Equipment, software, and workflow selection guidance
- Internal policy and procedure development

Media & Marketing Services

- Drone photography and video
- Project highlight videos
- Social media content for builders and contractors
- Commercial and real estate media

Differentiators

- Independent third-party documentation
- Built specifically for risk mitigation and liability protection
- Industrial and safety background in plant operations
- Consistent, repeatable capture methods for accurate comparisons over time
- Fast, organized delivery with long-term storage
- Veteran-owned, disciplined execution

Experience & Partnerships

- Chattanooga Audubon Society – Official Aerial Documentation Partner
- Construction and development site documentation across multiple projects
- Contributor to Tennessee drone-related legislation and implementation discussions
- Active engagement with regional builders, contractors, and industry professionals

Available for subcontracting and pilot programs

Ideal Clients

- General contractors and builders
- Developers and project owners
- Insurance and risk management professionals
- Municipal and infrastructure teams
- Security Teams

Typical Use Cases

- Pre-construction documentation
- High-risk phases and site condition tracking
- Inspection, compliance, and dispute support
- Drone program development and operational structuring
- FAA compliance reviews and risk mitigation planning
- Project marketing and stakeholder communication content

IEWS FROM ABOVE

Past Performance

Chattanooga Audubon Society

- Official Aerial Documentation Partner
- Ongoing aerial documentation of protected land and conservation efforts
- Consistent, repeatable capture for long-term environmental tracking

Construction Site Documentation

- Pre-construction and progress documentation
- High-risk phase capture and site condition tracking
- Organized records supporting project clarity and dispute prevention

Tennessee Legislative Contribution

- Provided technical input on drone-related legislation
- Contributed to implementation considerations for compliant operations

Consulting & Advisory

- Identified operational risks in planned multi-site drone deployments, preventing unnecessary licensing requirements and cost exposure
- Advised contractors on FAA compliance issues, correcting non-compliant operations before potential liability or enforcement action
- Provided guidance on drone program setup, compliance, and workflow structure
- Supported decision-making around equipment selection and operational strategy

SB 2434 / HB 2147 Implementation Considerations

Prepared by:
