My success in the past has stemmed from my strong commitment and sense of professionalism. I keep high standards for my work and am known for my ability to follow through. I have the ability to wear many hats and I'm always searching for that next location. I am very outgoing and I work well with all personality types. I completed my training in The Professional Film and Television Training Program at Chattanooga State in December 2010. I did my internship with National Geographic and when I finished my internship I received my certification as a location scout and as a location manager. I also became certified as a Location Scout/Manager through the Tennessee Film Commission who worked in coordination with the Film training program at Chattanooga State. In 2010 and 2011 I was a liaison for the Chattanooga South East Tennessee Film Commission. I have worked in many different States in the Southeast. I love to travel and I am willing to scout all over the world to find your next location. I love all aspects of film making and desire to learn as much as possible.
